SCOTLAND.

Edinburgh, March 21.

WEDNESDAY last died at his Seat of Halkehead, the Right Hon. William Lord Ross, aged 82. In the Year 1704 his Lordship had the Honour to represent her Majesty's Royal Person in the General Assembly of the Church of Scotland; during the same Reign he was nominated one of the Commissioners of the Treasury, and of her Majesty's Privy Council: In 1705 he was appointed of the Commission for the Union between Scotland and England: Upon the Accession of his Majesty King George I. his Lordship was elected one of the Sixteen Peers for Scotland, and thereafter appointed Lord Lieutenant of Renfrew. He married first the only Daughter and Heir of Sir John Wilkie of Foulton, by whom he had Issue George Master of Ross, and three Daughters, whereof the eldest married to William Earl of Kilmarnock; the second to John Duke of Athol; and the third to Sir James Lockhart of Carstares: His second Lady was Daughter of Philip Lord Wharton, who died without Issue: Then he married Anne Daughter of John Marquis of Tweedale, by whom he had one Daughter: And last of all he married Mrs. Henrietta Scot, Daughter of Sir William Scot of Thirlestane, Bart.

He is succeeded in Honour and Estate by the Hon. George Master of Ross, one of the Commissioners of the Customs.

The Express which arrived here on Friday last, is said to have brought his Majesty's Commission, nominating the Right Hon. James Earl of Morton, Vice Admiral of Scotland, and Isles thereunto belonging, in Place of the deceas'd Earl his Father.

The same Day a Woman having concealed herself in the Outer Parliament House, with a Design to rifle the Shops there, had actually effectuated her Design; but unluckily before she could make her Escape in the Morning, some of the People missing their Things, upon a strict Search they discovered her, and committed her to the City Guard.

Some Days ago the Right Hon. the Earl of Caithness, was married to the Hon. Lady Margaret Plimtse, a very agreeable Lady, Sister to the Right Hon. the Earl of Roseberrie.

We hear that Brigadier General Guest, who is commanding Officer of his Majesty's Troops in Scotland, is now recovered of his late Indisposition, to the universal Satisfaction of all, being justly admired for his prudent Conduct, obliging Carriage, and general Benevolence to Mankind.

On Wednesday next two of the associated Brethren are to hold a solemn Fast on the Top of Braid's-Hill, (two Miles out of Town) to mourn and pray for the Sins of the Land; where it is expected there will be a numerous Congregation.

Yesterday died of a Fever Mr. Archibald Balfour, Merchant in this City.

We hear a great Number of valuable Papers were consumed at the Burning of Mr. Mitchel's House of Parkhall.

Last Week a Commission passed the Seals, appointing Patrick Murray of Dollary, Keeper of the Register of Sasines for the Shire of Perth.

By several Letters just come to Town from Zetland, we have the following genuine Narrative, relating to the Ship said to be wrecked on the Island of Fetlar, about the Middle of December last, viz.

Some dead Bodies, and other Indications of a Wreck, having been cast ashore, the Baillie of the Island repaired to the Place where the Wreck appeared to have happened, in order to take all proper Care of what might be saved for the Behoof of all concerned, and, upon a nearer Scrutiny, there were found some Bars, and several Pieces of coined Silver, to the Value of about 3000 l. with some dead Bodies, and Legs and Arms of other Bodies that had been dashed to Pieces by the Violence of the Waves, among the Clifts of the Rocks, when the Ship was supposed to have struck. There has not yet been found any sufficient Tokens to document with Certainty what Country Ship she has been; only it is conjectured, that she may have belonged to the Danish East India Company. The Place where these dead Bodies, &c. were found, is a perpendicular Rock about 30 Fathom high, and below very deep Water; so that it is supposed, as the Sea then run very high, upon the violent Shock of the Ship's striking, those dead Bodies, together with the Silver, have been thrown up upon the Clifts of the Rocks, and the Remainder has fallen to the Bottom, from whence it will be impossible to recover any ponderous Substance that may have sunk, by reason of the great Depth of Water, and the continual Breach upon that Rock, occasioned by the rapid Tides.

IRELAND.

Roscommon, March 15. Our Assizes ended here the 10th of this Instant, one Patrick M'Donnell with a long Beard, aged 70 Years, was found Guilty of Horse-stealing, and is to be Executed the 22d of this Month, and 9 other Prisoners to be Transported.

On Saturday George Ennis, one of the City Constables, was executed at Stephen's Green, for the Murder of William Davison, a Pewterer, the 20th of December last, as formerly mentioned in this Paper.

The same Day his Grace the Lord Lieutenant's Horses were shipped for England.

We are informed that our Parliament will rise this Week, and that his Grace the Lord Lieutenant will embark for England on Saturday next.

Votes of the House of Commons of IRELAND.

Veneris 10. *Die Martii*, 1737.

ORDERED, That Mr. Speaker do Issue his Warrant to the Clerk of the Crown to make out a New Writ for electing a Burgess to serve in this present Parliament for the Borough of Dunleer in the County of Lowth, in the room of Francis North, Esq; deceased.

Ordered, That Mr. Speaker do Issue his Warrant to the Clerk of the Crown to make out a new Writ for electing a Citizen to serve in this present Parliament for the City of Waterford, in the room of John Mason, Esq; deceased.

Then the House, according to Order, resolved itself into a Committee of the whole House, to take into Consideration an Engross'd Bill from the Lords, entitled, An Act for the better Preservation of the Game, and after some Time spent therein Mr. Speaker resumed the Chair.

Doctor Trotter reported from the Committee, That they had made some Progress in the Matter to them referred, and that he was directed to move the House for Leave to sit again.

Resolved, That this House will, on Monday next, resolve itself into a Committee of the whole House, to take the said Bill into further Consideration.

Mr. Flood reported that he had, pursuant to the Order of this House, carried to the Lords the Answer of this House to their Lordships last Message, which Answer is as follows:

'THE Commons cannot avoid taking Notice, 'that the Dispute between the Lords and 'Commons has been managed on the Part of the 'Lords in a Manner not so well suited to the Dig-'nity of either House, as the Commons could have 'wished.

'The Turn upon the Word, *surprized*, (not to 'mention the unbecoming Insinuation it carries) is so 'far beneath the Gravity of an August Body, that 'the Commons cannot enough wonder how the 'Lords could descend to it.

'The Commons are surprized that the Lords should 'expect Reasons from them for their opposing this 'Attempt on their Privileges, or should require Au-'thorities for the Support of an Usage, of which 'many of the Lords have been Witnesses, and of 'which Right being drawn into Question between 'the two Houses, the Commons cannot find any 'Trace.

'The Commons are not inclined to take Notice of 'Mistakes, but have a Right to animadvert upon the 'Stile or Expression of the Lords, when either is in-'jurious to the Commons.

'The unprecedented Claim the Lords make to the 'Attendance of the Commons upon the Lords at 'Conferences, is the highest Indignity to the Com-'mons, and utterly inconsistent with the Indepen-'dency of the Commons on the Lords.

'The Commons do insist it is their undoubted 'Right, that their Managers should go within the 'Rail when they meet the Lords at Conference, 'and are determined to maintain that Right.

And that their Lordships were pleased to say they would return an Answer by Messengers of their own.

A Complaint being made to the House of a Breach of Privilege committed by John Williams and James Hall, against Sir William Parsons, Baronet, (a Member of this House) by forcibly breaking open the Doors of the said Sir William Parsons, and carrying away certain Goods in his Custody, during the Time of Privilege.

Ordered, That the Matter of the said Complaint be referred to the Committee of Privileges and Elections, and that they do examine and report the same, with their Opinion therein, to the House.

The Popish Doctrine of Justification by Works confider'd: In a Sermon preached at Pinners Hall, Feb. 11, 1734-5.

The only short and infallible Cure

For that reigning Disease the SCURVY, and all Scorbutick Humours, tho' arrived to the highest and most inveterate Degree, or of ever so many Years standing, and that without any sensible Evacuation or the least Purging, which by an unaccountable Mistake is generally advised, although always found rather to increase and confirm the Scurvy than cure it.

By the so much famed and most pleasant Chymical DROPS:

WHICH, without the least Trouble, Confinement, or any Disorder whatever, do at once destroy at the true Cause of the Scurvy, and intirely destroy it, and all Scorbuick Humours and Effects, Root and Branch, so as never to return again, as many Thousands of both Sexes have experienced, and as all who take them in 3 Days time will be convinced; for they almost instantly alter the morbid State of the Juices, purify the Blood, sweeten all the Fluids, cleanse them from Impurities, and directly clear the whole Habit from all Spots, Blotches, black and blue Marks, Itchings, foul Eruptions, or Breakings out, Weakness of the Limbs languid Heavyness of the whole Body, wandering Pains, Weakness of the Back, and all the vast Variety of Symptoms by which the Scurvy imitates and often lies concealed under the Appearance of the Rheumatism, and many other Distempers.

And for strengthening the Stomach, immediately creating a good Appetite, causing a regular and easy Digestion of Food, and curing all windy Effects and Disorders of the first Passages (whence proceed Head-achs, Vapours and other Indispositions) no Bitters nor any other Medicine upon Earth can compare with them, inasmuch that besides infallibly curing the Scurvy in all its Shapes and Appearances, they also assuredly and immediately cure the Green-sickness in Virgins, Worms of all Kinds in young or old, and almost all other Chronick Diseases, (which are chiefly occasioned by Indigestion and flatulent Crudities in the Stomach and Bowels) and certainly prevent Fevers, Agues, and other acute Illnesses.

They are wonderfully Cordial and Restorative, strengthen and enliven the whole Machine, and assoon as taken, make the Patient pleasantly Lightsom, Brisk and Vigorous to admiration, and are good for all Sorts of Persons, to preserve as well as to procure a sound and healthy State of Body.

But the great Reputation these famed and pleasant Chymical Drops have so universally gain'd among Persons of Eminence, for their suddenly and infallibly curing the Scurvy and all Scorbutick Humours, and other Chronick Diseases, in such an easy and agreeable Manner, have occasioned many to imitate them, some under the same, and others under other Names: Be careful therefore not to be deceiv'd; but be sure to have the Right, which by the Author's special appointment, are to be had only at the Gentlewoman's, at the Two Blue Posts, in Haydon-Yard, in the Minories, at 3 s. 6 d. a Bottle, with Directions.

The Universal Family MEDICINE,

Still more and more fam'd, after upwards of 14 Years Success with the Publick,

Is sold by the Author's Appointment, at Mr. King's Picture Shop in the Poultry, near the Royal Exchange; at Mr. Martin's Toy Shop, the Sign of the Three Rabbits near Durham Yard in the Strand; and by Mr. Hildyard, Bookseller in York, at 3 s. the Bottle Retail.

It is to be taken at any Season of the Year, but especially in the Spring and Fall; is so very agreeable to Young and Old, that Children take it without Trouble, a few Drops being a Dose; and so gentle, that it weakens not the most Aged. For it is a safe and effectual Alterative, so be taken in a less Dose than where Purging is necessary; as Excellence inherent in this Medicine, which is a singular Property well known to the Learned, to be in some Cathartick Medicines.

It is in particular,

A Certain and infallible Cure for the SCURVY, tho' of the longest Standing, and attended with the most aggravated Circumstances (a Distemper so common to English People, that not one in a thousand is wholly exempt from it, and great Numbers are sorely afflicted with it) being a cordial Elixir, peculiarly adapted to that Disease in all its Forms of appearing, from the slightest itching Humour in the Blood, to its utmost or last Efforts on human Nature.

For it is a true Specifick Cordial, that perfectly cures that Distemper by gentle Evacuation, by Stool and Urine, the only sure and effectual Way perfectly to cure the Scurvy, &c. and prevent Relapses (notwithstanding what may be dreamt to the contrary) the Truth of which is witnessed to daily, by the many Thousands that have taken this Medicine. It so powerfully rectifies the Blood and Juices, that scrophulous Cases are also speedily cured by it; and all Spots, Blotches, Pimples, &c. on the Skin, are quickly and entirely taken off, the Patients made lively and brisk, many chronick Diseases prevented, and a due State of Health secured.

It removes all Pain from the Stomach, helps Digestion, opens Obstructions, and is peculiarly serviceable to Maids inclined to, or troubled with the Green Sickness. 'Tis the best Medicine in the World to destroy Worms in Children or grown People, and prevent their Return; for it scours away all those ropy, viscid Humours which breed them in their Bowels, and is so well adapted to all Constitutions, that it is deservedly esteemed both in City and Country, the most general Family Medicine that ever was known to preserve Health, and hinders no Business or Recreation.

Good Allowance is given Wholesale by Mr. King for ready Money to Country Shopkeepers, &c. to sell again. This Medicine will keep many Years in any Climate.

The Directions given with it are large and full.
